The phraseology of the bill was

changed to some extent. School officials feared that the bill in its pres-

ent form might deprive teachers of

some of the privileges they now hold and in order to make the bill read

learer, several paragraphs were re-

"We want to protect the teachers," said Dr. Van Schaick today, "and we therefore carefully scrutinized the

bill a second time to determine whether we inadvertantly wrote the

bill in such a way that it might be construed wrongly. However, I think he bill in its present form is suf-ficient protection of a teacher's rights.

# PENSION LAW

Majority Leader Has Senate Adjourn Until Monday, Delaying Retirement Bill.

Plans of Republican Leader Lodge to have the Senate adjourn over te-night until Monday will be successful in blocking Congress on the retire-ment bill for District and Federal employes under classified civil service. Senator Sterling of North Dakota, who hopes to get the bill up again to-day, will have o large-size fight on

Shortly after the Senate met today Senator Lodge obtained the consent to adjournment until Monday. This was disconcerting to Senator Sterling, as the civil service chairman hoped to make considerable progress on the

measure today and tomorrow.

Senator Sterling said that he did not believe it would be possible to get a final vote on the retirement bill this

A vote this afternoon would be ap

proximately the one chance for the passage of the bill at this time. If Senator Lodge succeeds in bring ing up the peace treaty Monday its consideration would take precedence over all other matters of the Senate. Senator Sterling's bill, like other measures, would then have to wait

Senator Sterling said he could not object to Mr. Lodge's motion to have the Senate adjourn over until Monday because of the necessity of conferences tomorrow on the pending peace treaty fight.

Senator Pomerene of Ohio, who is an opponent of the Sterling-Lehlback retirement measure because it entails too great a financial burden on the Government, has brought before the Senate a substitute bill which would have the effect of making the pension plan entirely self-sustaining. Between these two measures the

Senate is at loggerheads today. Senator Sterling intends to push his own measure, which has received the magnity indorsement of the Commit-Civil Service and Retrenchment, despite the opposition of Senator Pomerene and other opponents. Strong opposition showed itself yes-terday when the measure was taken up in the Senate. If it is possible to do so, Senator Sterling intends to keep

it there until voted upon.

The bill as introduced by Senator
Sterling provides for the retirement of employes who have reached the age of sixty-five years and rendered at least fifteen years' service. The Government contributes 62.3 per cent to-ward the annuity fund and the civil service employes contribute the other

Senator Pomerene's substitute bill provides for a graduated scale of as-sessment from 2.7 per cent to 8 per cent against employes' salar rise according to the age of the person when he enters civil service em-

ployment. This assessment is in no case to exceed 8 per cent of the salary. The Pomerene bill provides for retirement at the age of seventy.

Senator Pomerene has challenged the figures contained in the Stering bill, declaring that it would cost the Government \$15,000,000 instead of \$9,000,000 as its supporters estimate. Employes of the Government Printing Office are rallying behind the Sterling bill, a petition signed by 2,086 of them having been presented

to Congress. Other bureaus are join ing with the Government Printing Office in asking the Senate to act favorably on the Sterling bill. SAYS HOME BREW MAKES

Coroner's jury will hold an inquest this afternoon at 3 o'clock, at the District Morgue, and Perrigo will probably be held for the action of the grand jury on a murder charge.

Perrigo is still ignorant of the leath of Mrs. Faithful, it was stated

his morning at the Eleventh precinct station, where he is being heid. Mabel Hill, Perrigo's sweetheart, is

being held at the house of detention pending further investigation of the murder, and the theft of Mrs. Faithful's savings. The police believe that all of the money taken from Mrs. Faithful has not yet been recovered.

#### **200 LABORERS CLEARING** STREETS OF SNOWFALL

Fire Department Will Be Utilized to Flush Downtown Business Thoroughfares.

Two hundred workmen of the Disrict Street Cleaning Department tolay set out to clear gutters and cross valks of snow. Several huge plows are in operation, mainly in the downown section, where congestion is reatest. No attempt will be made t this time to clear street and pavenents.

Enginer Commissioner Charles W. Kutz said today that the Commission was considering calling on the Fire Department to flush the downtown streets, to either melt the snow or push it out of the main roadway. "It will be impossible to do this ow," said Colonel Kutz, "we will have to wait for warmer weather. The snow is packed down so hard now that our efforts would bring no results. However, we hope to have he Fire Department hoses working within the next two days."

#### SAYS EDUCATION MUST BE UPHELD IN CRISIS

Declaring that education, as one f the strongest forces in upholding he ideals of humanity, must be mainained in the present crisis, President harles Franklin of Western Reserve Iniversity, addresed the members of the Washington Alumni Association at their annual banquet, held in the niversity Club last night.

President Franklin declared that the greatest forces for the betterof humanity are the church, the civil government, the family and literature. The other speakers of the evening were Morris J. Hole, Henry M. Robinson, James A. Robertson John H. Dynes and Ralph Hayes Frederick C. Bryan presided.
